SEMITANK SSD 2280 NVMe S9 512GB

## P/N: STNVMeM228S9X-512

# DESCRIPTION

S9 Consumer Series 512GB is an SSD hard drive using a connection interface NVMe PCIe 3.0 Gen 3\*4 controller. This is a SSD that delivers read/write speeds up to 1600/1400 MBps and Support TRIM, NCQ, S.M.A.R.T, ECC, Wearleveling.

System Support: Windows XP/Win7/8/10/11, Mac OS, Linux, embedded operating systems used in control, measurement, and applications such as: Music server,

Automation control.

### Precautions:

[1] The speed was tested by Semitank and for the reference only.

[2] 1GB=1,000,000,000 Bytes. In OS system, it would be displayed as 1,000,000,000 Bytes/1024/1024/1024 = 0.93GB [3] Definition and conditions of TBW (Terabytes Written)are based on JEDEC standard

[4] Transmission speed will vary according to different hardware/software conditions, therefore the data can only use for basic reference.

#### NOTES:

[5] We reserve the right to modify product specifications without prior notice.

[6] Different devices may have a different best format for usage. It is recommended to format the device before use to ensure the correctness and the integrity of the SSD.

[7] (1): We can use any of the above driver ICs. Basically, they do not change the performance and basic specifications.[8] (2): We may change any type of memory chip for any product line without notice.

| SPECIFICATIONS             |                                                                                                                                                                       |
